

## 2023 HIFU Case Competition

### (Competition on High Intensity Focused Ultrasound Case Study)

Since the establishment of the training center of National Engineering Research Center of Ultrasound Medicine(NERCUM) in 2017, it has organized 97 HIFU training courses, with 2370 doctors and nurses been trained in the Center by 2021. To celebrate the coming of 100 HIFU training courses, also to provide a chance for doctors performing HIFU to learn from each other, our center is working jointly with International Society of Minimally Invasive and Noninvasive Medicine (ISMIVS) to launch a competition on High Intensity Focused Ultrasound (HIFU) Case Study. We warmly welcome you to join this competition!

The competition will have two rounds:

**First round:** submit your case study video and presentation slides to the organizer's email: [hannahxu@isminim.org](mailto:hannahxu@isminim.org) **before June 16th, 2023.** A professional judging panel will select 10 excellent case studies into the second round **before June 20th, 2023.**

**Second round (final round):** The contestants who get into the second round will present his/her case study in **Chongqing, China**. More details about the final round will be released in the mail to the finalists.

#### **Requirements for the Case Study Video:**

1. The case shall be done using Focused Ultrasound technology
2. Any indication is acceptable
3. The video shall include: **patient history, examinations, diagnosis, treatment protocols, treatment procedures , follow-ups**
4. Video: 8-10 minutes in MP4, clear quality without noise
5. Speaker shall properly dressed with upper half-body appearing on the camera
6. Language: English

#### **Prize:**

First Prize: 1 contestant

Second Prize: 2 contestants

Third Prize: 3 contestants

Fourth Prize: 4 contestants

Audience Choice Award: 1 contestant
