

2022 APAGE-OGSM-ISMIVS Conference for Minimally Invasive and Noninvasive Surgery (Malaysia)

Nov.13,2022

Message from APAGE

Prof. Chyi-Long Lee

Dear friends and colleagues,

As the COVID-19 pandemic seems to show a sign of easing, we are gradually going back to normal lives. I am so excited to welcome you to the 2022 APAGE-OGSM-ISMIVS Conference for Minimally Invasive and Noninvasive Surgery at beautiful Malacca. I appreciate Chongqing HAIFU for inviting me to take part in this elaborate conference.

In 2022, APAGE has already held 13 academic events, in which we especially focused on HIFU, promoting this new non-invasive technique is also the major mission we collaborated with ISMIVS.

This workshop has 13-day solid training courses and speeches given by HIFU experts from many countries, like Malaysia, Thailand, Indonesia, Singapore, China, Spain, and the UK. I believe that trainees could benefit greatly from the professions.

The treatment would be more individualized if a physician has multiple ways to treat their patients. I hope more and more gynecologists could absorb more knowledge of HIFU, the non-invasive therapy that advocates women's health and improves their quality of life.

Wish the workshop a big success!

Chyi-Long Lee, M.D., Ph.D.
Chairman of Board of Trustee, APAGE

Obstetrical and Gynaecological
Society of Malaysia

Message from OGSM

Dato' Dr. Balanathan
a/l Kathirgamanathan

It gives me great pleasure to welcome all of you to this Conference on HIFU and laparoscopic surgery. The Organising Committee has done a wonderful job in bringing this Conference to Melaka.

The first time we had a topic on HIFU was during our 29th International Congress of the Obstetrical and Gynaecological Society of Malaysia. At the Congress, Dr Sevellaraja had given an excellent presentation on HIFU and the cases that has been done to-date. There was also a booth during the OGSM Congress about HIFU which had attracted a lot of attention. Having this Conference will allow our colleagues to have an in-depth knowledge regarding this procedure and the benefits to the patient. The objective of this Conference is not only to share knowledge update but to also interact with our fellow colleagues. The Conference will be able to provide all of us with evidence, new insights, issues and controversies on HIFU and also minimally invasive surgery.

I hope all of you have a fruitful and enjoyable Conference.

Dato' Dr Balanathan a/l Kathirgamanathan
President
Obstetrical and Gynaecological Society of Malaysia

Message from Organizing Chairman

Dr. Sevellaraja Supermaniam

Dear Colleagues and Friends,

It is with great pleasure that I welcome you to participate in the Conference for Minimally Invasive and Noninvasive Surgery. This conference has been jointly organized by the Asia-Pacific Association for Gynecologic Endoscopy and Minimally Invasive Therapy (APAGE), Obstetrical and Gynecological Society of Malaysia (OGSM) as well as, the International Society of Minimally Invasive and Virtual Surgery (ISMIVS), from the 13th of November, in the beautiful city of Melaka, Malaysia.

Since 2020, APAGE and ISMIVS have provided advanced education and live demonstration workshops for doctors seeking better minimally invasive and noninvasive surgery techniques; as well as delivering up-to-date and optimal clinical practices to keep us on an upward growth trajectory. This will be the very first APAGE-OGSM-ISMIVS meeting to be held in Malaysia.

Minimally invasive and noninvasive therapies play a very important role in the fast-changing world of surgical technology today. They identify ways to improve care for all patients. With our combined wealth of experience, we are at the forefront of safe and effective practices in people's health worldwide, and are ready to exchange cutting-edge research, clinical experience and

technical skills with our global community.

This Conference has been specifically designed to include education and modality on hysteroscopy, laparoscopy and high intensity focused ultrasound. It is packed with live surgeries with optimal clinical protocols and innovative techniques. I invite you to join me as well as friends from around the world, in Melaka, a charming city with its famous multicultural heritage.

I look forward to seeing you here, in November 2022!

Dr. Sevellaraja Supermaniam,

Organizing Chairman

2022 APAGE-OGSM-ISMIVS Conference for Minimally Invasive and Noninvasive Surgery (Malaysia)

Meeting Agenda

09:00-12:10	Session 1: Laparoscopic Surgery
Session Chairs	Prof. Chyi-Long Lee, Dr. Andy Tan
09:00-09:30	New horizontal in deep endometriosis treatment <i>Prof. Chyi-Long Lee</i>
09:30-10:00	Role of hysteroscopic surgery in infertility <i>Prof. Aizura Adlan</i>
10:00-10:30	Management of caesarean scar pregnancy <i>Prof. Bernard Chern</i>
10:30-10:40	Coffee Break
10:40-11:10	Surgical management of endometriosis to optimize future fertility <i>Dr. Wan Ahmad Hazim Wan Ghazali</i>
11:10-12:10	Live surgery demonstration <i>Prof. Chyi-Long Lee</i>
12:10-13:30	Lunch
13:30-14:20	Opening Ceremony <i>In Conjunction with</i> The Opening of International Training Workshop of Focused Ultrasound Therapy for Tumors The Launching of the HIFU Center of Mahkota Medical Center
14:20-18:00	Session 2: High Intensity Focused Ultrasound
Session Chairs	Session 2-1 Dato' Dr Balanathan a/l Kathirgamanathan, Dr. Relly Yanuari Primariawan
14:20-14:50	Pregnancy outcome after HIFU - A single center result from Spain <i>Prof. Jordi Rodriguez</i>
14:50-15:20	HIFU ablation and antitumor immune response <i>Prof. Feng Wu</i>
15:20-15:50	Infertility with adenomyosis - How can HIFU help? <i>Dr. Sevellaraja Supermaniam</i>
15:50-16:20	HIFU - Ten year's experience in Oxford (recorded) <i>Prof. David Cranston</i>
16:20-16:30	Coffee Break
Session Chairs	Session 2-2 Dr Sharifah Halimah Jaafar, Dr. Olarik Musigavong
16:30-17:00	How to enhance HIFU sonication <i>Dr. Kim Tae Hee</i>
17:00-17:30	Management of liver tumor & HIFU application in other extended indications <i>Prof. Mohamed Hamed</i>
17:30-18:00	Overview of HIFU clinical application and our training experience <i>Prof. He Min</i>

Session 1: Laparoscopic Surgery

Chair:
Prof. Chyi-Long Lee

Co-Chair:
Dr. Andy Tan

Prof. Chyi-Long Lee
New horizontal in deep
endometriosis treatment &
Live surgery demonstration

Prof. Aizura Adlan
Role of hysteroscopic
surgery in infertility

Prof. Bernard Chern
Management of
caesarean scar pregnancy

**Dr. Wan Ahmad
Hazim Wan Ghazali**
Surgical management of endome-
triosis to optimize future fertility

Session 2-1 : High Intensity Focused Ultrasound

Chair :

Dato' Dr. Balanathan
a/l Kathirgamanathan

Co-Chair :

Dr. Relly Yanuari
Primariawan

Prof. Jordi Rodriguez
Pregnancy outcome after HIFU-A
single center result from Spain

Prof. Feng Wu
HIFU ablation and
antitumour immune response

Dr. Kim Tae Hee
How to enhance
HIFU sonication

Prof. David Cranston
HIFU-Ten year's
experience in Oxford

Session 2-2 : High Intensity Focused Ultrasound

Chair :
Dr. Sharifah Halimah Jaafar

Co-Chair :
Dr. Olarik Musigavong

Prof. Mohamed Hamed
Management of liver tumor & HIFU ap-
plication in other extended indications

**Dr. Sevellaraja
Supermaniam**
Infertility with adenomyosis -
How can HIFU help?

Prof. He Min
Overview of HIFU clinical application
and our training experience

Venue

Ballroom 1
Hatten Hotel,
Jalan Merdeka, Bandar Hilir, 75000 Melaka, Malaysia
